BUSINESS SKIES BRIGHTER SAYS GARY

Head of U. S. Steel Says He Looks For Business Revival

VERY OPTIMISTIC

Calls For Mutual Understanding Between Capital and Labor—Points to Rise of Employees.

New York, Dec. 27.—That the business skies of the United States practically are without clouds is the statement of Judge Elbert H. Gray, chairman of the board of directors of the United States Steel Corporation, writing upon "Why I Look for Better Business Conditions" in Leslie's Weekly to be published today.

In his article Judge Gary will say:

"While I recognize, and for many months have comprehended, dangers in the general situation, I am more optimistic in regard to the future of this country than I have been at any time during the last six years. If people generally will recognize the possible dangers and will, each for himself or herself, do everything possible and practicable to improve conditions we shall soon return to a basis of living which should be entirely satisfactory.

"Although this is a time for courage, composure and caution, the business skies are practically without clouds. As always, there may be showers from time to time, but there is nothing in the atmosphere to indicate the approach of dangerous storms. It is up to the business men and women to maintain certain and continuous business activity in satisfactory volume, with fair and reasonable profits.

"In the United States capital must not and will not give cause for offense to labor in the United States labor must not and will not destroy itself by trying to wreck capital. There has been great progress in America with regard to these relationships during recent years.

"Employer and employed are not here spoken of as master and servant they are associates and both find the relationship a pleasant one. Each is obligated to consider and protect the rights and interests of those he works with. Interdependence is complete and perfectly admitted. This is not a theory; it is a practice. Capital understands not only the honesty of the situation, but also its wisdom.

"In America the workmen of today are the employers to tomorrow. I have been immensely interested in this characteristically American tendency and have inquired into it. Practically all of the successful men in the industry with which I am associated, that of the manufacture of iron and steel, began life without pecuniary advantage or any influence save that which they themselves created through faithful and honest performance of their duty as it came to hand. This fact is undeniable.

"And further, I trust that we shall avoid the danger of discriminatory legislation in this country. Any legislation that is calculated to create dissensions or to affect favorably one class, as it is called in our general terms, to the prejudice of another, is harmful and vicious; and, carried to its natural results, may endanger even the national structure itself.

"It is well for the large number of employers to bear in mind that they cannot successfully carry on their affairs without having the labor and loyalty of their employes, who constitute a large majority. It may be true that machinery is taking the place of thousands of workmen and that the number of machines may be increased but it seems certain that thedw odr multitudes will always be needed for the successful operation of business. It behooves the employers to give constant and intelligent thought to the rights, necessities and welfare of the employes, and this on the basis that the former are dependent upon the latter as a most important unit in business progress.

"And the employes are just as dependent upon the employer. The employes are made up of the unskilled, laborers, not infrequently designated as common labor, the skilled labor, so called, and the administrative force.

"If I read aright the signs of the times we may look forward with confidence to marked improvement in business results, perhaps not so soon or so rapid as we could wish, but as certain and as satisfactory as the disposition and the action of the majority of the people themselves will permit."

Xmas Fire

Ration of Divorces in Virginia Is One to Every Eight Marriages

There was one divorce in Virginia during the fiscal year just past for every 7.76 marriages, according to the annual report of the health commissioner, released for publication yesterday. There figures were compiled by the Bureau of Vital Statistics which is a part of the Health Department.

Another interesting point in the report is the revelation of the fact that although there were 4,000 deaths in Virginia from influenza during the year, there was really no epidemic anywhere.

Stressing education is the keynote of the report. Through the schools, through associations and by means of periodic bulletins and newspapers, the Health Department has been able to conduct its instructive campaign so that virtually everybody in the State has been reached. This knowledge, so disseminated, has not only aided in the diptheria work, but in scarlet fever, measles, whooping cough, meningitis and te intestinal troubles, the report shows.

The two notable achievements in the work of malaria control were located at West Point and Virginia Beach. In each of these places a reduction of 90 per cent under the five year average for malaria was effected. Malaria surveys of a large number of Virginia places have been made. A co-operative campaign will, during the coming year, be conducted by the State Board of Health and the International Health Board, with the United States Public Health Service aiding.

One forward-looking step in the direction of controlling defects was the dental hygiene. A surprisingly large number of children have been found suffering from unsuspected troubles of eyes, ears and throats, adenoids being the principal trouble, but many tonsils needing attention or removal.

There is another interesting side to the report. Instead of there being an unusually heavy death rate from tuberculosis, there were decidedly less fatalities this year than during any preceeding twelve months. It would seem that the sanatoria in Virginia are justifying their existence and performing their principal function. These establishments were begun primarily for the purpose of teaching consumptives how to care for themselves, as educational, rather than curative establishments.

SPEND QUIET XMAS IN THIS CITY

Family Reunions and Church Services Mark Observance

YULE SPIRIT PREVAILS

Happiness Brought to Inmates of Various Institutions — Youngsters Enjoy Day Indoors.

Alexandria spent an unusually quiet Christmas. Family reunions and church services marked the observance of the day. Apart from the crowds attending the services at the churches in the morning there were comparatively few persons on the streets. Almost everybody stayed in doors.

The turkey dinner was the main feature of the celebration in many homes. Although there were hundreds of families this Christmas who went without turkey owing to the high cost of that bird.

Hundreds of Christmas trees scattered in many homes where there are children kept the kiddies indoors. The children have not yet had a chance for their sleighs, although the snow arrived twenty-four hours late and did not remain long enough for the youngsters.

The church services were well attended. Sermons appropriate to the observance of the day were delivered from the pulpits of all of the churches where services were held. Elaborate musical programs were given Christmas day and also Sunday.

The midnight mass at St. Mary's Catholic Church attracted a capacity congregation, the attendance being the largest seen in that church in many years.

Dispensers of charity were kept busy Christmas eve and Christmas day and hundreds of poor families were made happy through the efforts of representatives of such organizations.

This Christmas was minus horn blowing. There were no fireworks of any kind Christmas, and according to reports old John Barleycorn was very scarce. The police report there were comparatively few persons who showed any effect of overindulgence and there were few persons who kept open houses.

PLANS WILD WEST MARCH 4 FEATURE

Memories of Roosevelt's inauguration in 1905 will be recalled by one section of the Harding parade on March 4 next, if plans of Eugene Lorton, proprietor of the Tulsa World work out.

Lorton declared last night he would leave today for Oklahoma, where "a few real cowboys and Indians still exist," and promises to have some of them in line on inaugural day.

At a meeting of the general inaugural committee in the red room of the New Willard, at 4.30 o'clock this afternoon, Chairman E. B. McLean will outline to subcommittee heads the duties devolving upon each branch from now on until March 4. Jess W. Smith, general committee secretary, is expected today from his home at Washington Court House, Ohio, ready to plunge into work. He will find an augmented staff at headquarters to carry out his orders.

Mardi Gras experts in New Orleans are about to embark to Secretary Smith numerous suggestions for the proposed Carnival of States to be held on Pennsylvania avenue and intersecting streets from the Capitol to the Treasury, the evening of inaugural day.

The bride was given in marriage by her mother. She wore a blue cloth traveling suit, gray hat and gray fox furs and carried pink roses. The house was decorated in ferns and poinsetta. Moore Honored

Virginia Congressman Gets Committee Berth

Washington, D. C., Dec. 26.—Representative R. Walton Moore, of Fairfax, Va., is slated for a place on the joint committee on the reorganization of the administrative departments created by recent act of congress now awaiting approval of the president.

This committee is expected to make a thorough investigation of the functions of all the federal departments and prepare plans for elimination of duplication of work by several of them. It is expected that by elimination of duplication of work many millions of dollars can be saved for the taxpayers annually.

There are, for instance, thirty-one separate engineering bureaus in the government, twenty-six surveying agencies, twenty-seven public building operations, sixteen public road agencies and fourteen river improvement bureaus. It was asserted during debate on the bill that if the committee performs its work properly it will result in saving $500,000 a year now spent in duplication of effort.

Mr. Moore is to be placed on this committee because of the deep interest he has shown in the proposition. He was perhaps the first member of congress to propose the plan. About a year ago, when the Republicans were criticizing the administration for overlapping and duplication of work in the departments, Mr. Moore made a speech in the house challenging them to make an investigation of the matter and to work out a plan to reduce work and expenses. He has kept right after the matter since, and in recognition of his work is to be placed on the new committee by Speaker Gillett.

A remarkable tribute was paid to Mr. Moore in a recent committee meeting on the bill by Representative Reavis, Republican, of Nebraska, who stated in open session that to Mr. Moore belong a great deal of the credit for the development of the idea and the formation of the committee. Mr. Moore had first suggested the plan, Mr. Reavis said, and had worked on it constantly since. "When the committee is formed," said Mr. Reavis "I hope Mr. Moore will be given a place on it."

Speaker Gillett has tentatively named Representative Reavis, and Temple, Republicans, and Moore, Democrat, as the house members. The committee is to be composed of three senators and three representatives two to be Republicans and one Democrat from either house.

WOMAN SANTA SAVES A FAMILY FROM GAS FUMES

Atlantic City, N. J., Dec. 27.—A chance call by a friend, Mrs. Effie Banks, with an armful of Christmas presents, probably saved the lives yesterday of Mrs. Susan McKeagie and her three daughters, Irene, Marie and Bella.

Mrs. Banks became alarmed when there was no response to the door bell and summoned Daniel Johnson, who managed to open a window. He found the house full of coal gas. Upstairs Mrs. McKeagie and the three children were unconscious in bed. A tube in some manner had become detached from a gas stove. The four patients recovered in the hospital.

STATE TO GET $2,250,000 THROUGH M'ARTHUR BILL

The Virginia State Highway Department here is squarely behind the McArthur bill, now before the committees of Congress, which contemplates the extension of Federal aid to the States for highway construction to the extent of $100,000,000 annually, according to announcement last night from headquarters of the department. Commissioner George P. Coleman, chairman of the executive committee of the American Association of State Highway Officials and a former president of the association, estimates that the enactment of this measure will mean $2,250,000 annually to the State of Virginia.

Commissioner Coleman attended a meeting of the association in Washington last week when the McArthur bill was fully discussed with Congressmen, Senators and the road committee of the House. Congressman R. Walton Moore, of the Eighth Virginia District, is a member of the House Committee on Roads, and was of great assistance to members of the association in the hearings before the committee. He and others who were present at the hearings were assured by the committee that the bill would be reported out favorably some time this week.

The committee was also in conference with Senator Townsend, chairman of the Senate Committee on Post offices and Post Roads, before which the McArthur bill will come in the upper branch of Congress. They went fully into the provisions of the bill with Senator Townsend with the expectations of expediting consideration of the measure after it has come from the lower branch.

GERMANS WILL RETAIN PROPERTY IN BELGIUM

Paris, Dec. 27.—Belgium, according to a Brussel's dispatch to the Journal, intends to renounce her right to confiscation of German property in Belgium, as provided in paragraph 18 annex 2 of the Versailles Treaty, following the example of Great Britain, which in October renounced its right to take over German property in the United Kingdom.

It is said Belgium will announce this decision after consulting with the Allies, but considers renunciation necessary from a commercial point of view.

Renunciation of the right to seize German property was asked of all the Allies by the Germans at the Brussel's conference as a concession to enable Germany to pay the reparation's claims.

EDUCATION IN 1620 AND NOW

One of the first things the Pilgrims did when they settled in New England was to establish free public schools for their children. In the 300 years since they came to these shores the country has grown amazingly, has become a great democracy, proud of its progressive ideals and achievements. Owen R. Lovejoy, of the National Child Labor Committee points out how the nation has failed in the matter of education. In his annual report of the committee's work he says:

"There are at least 5,500,000 illiterates in the United States. Nearly one-fifth of all American children between 10 and 15 are out of school earning their own money."

Such progress as has been made in industry and transportation in the maintaining of high standards of living, etc., is shamed by the neglect of the nation's young citizens. The Pilgrims were right in the emphasis they placed upon education for children. Their descendants are wrong when they permit so many to go, uneducated, into jobs which develop little skill or initiative and offer little opportunity for advancement.

He spent all of his Christmas Day in bed, and no visitors were admitted to see him save his closest friends. A mass was said for him Christmas Eve at midnight by his secretary, Father Smith.

Drummers Win "Brown Derby" In Getting Out of Matrimony

New York, Dec. 27.—"One out of nine traveling salesmen gets divorced as against one out of ninety-two farmers," said Professor Rudolph M. Binder, head of the Department of Sociology at New York University, in an interview yesterday. "As to the geographic distribution of divorce in this country, the West leads, while the North Central, South Atlantic and North Atlantic districts follow in order.

"Japan grants a greater number of divorces than any other nation in the world. Childless couples are divorced more frequently than those having children."

"There has been a perceptible increase in the marriage rate in the United States," declared Professor Binder. "In the year 1890, 316 per 10,000 were married. In 1900 the figures were 321 per 10,000 and the figures have been steadily mounting. This is especially true among the younger set.

"More young people are getting married today than ever before. The average age among girls nowadays is from 15 to 19 and among boys from 20 to 24. Americans marry young and have few children. This latter act is not due to physiological reasons, but to economic and social conditions. Children are an impediment to the social ambitions of women and then again the large number of women who are compelled to earn their living have little time to rear their children."

Hoover Assures Hungry European Children of Ten Million Dollars

New York, Dec. 27.—America's Christmas answer to the cry of Europe's famine field already has totaled over $10,000,000. Herbert Hoover cabled the European Relief Council on Christmas Eve.

This means, he added, that 1,000,000 of the 3,500,000 youngsters to be cared for have been provided for up until the next harvest.

His cablegram follows:

"I have in the past disappointed you by having to withhold any definite assurance as to whether we could continue the care of the 3,500,000 children now on the responsibility of all our associated organizations. The holding out of prospects that did not materialize would have been cruel I take pleasure in informing you that $10,000,000 is assured in cash and pledges out of the $33,000,000 that we require. This splendid initial gift of America to children of Europe leads me to believe that America's charitable people will assure the remainder necessary to finance the minimum program. Pass this on as America's Christmas message to the children.

"Herbert Hoover."

DEFENSE CONFERS ON HAMON TRIAL

Ardmore, Okla., Dec. 27.—Matters pertaining to the defense of Mrs. Clara Smith Hamon, at liberty under $12,000 bond here on a charge of having killed Jake L. Hamon, Republican national committeeman, were discussed at a conference yesterday between Mrs. Hamon and her attorneys. The conference continued four hours and according to the attorneys virtually every question involved in the case was gone into.

Mrs. Hamon came here from Wilson, Okla., 30 miles away, where she is visiting at the home of relatives, returning to Wilson late yesterday. The attorneys present included J. H. Mathers and C. A. Koakley, of Ardmore, and A. T. McLean and W. T. McLean, jr., of Fort Worth, Tex.

At the conclusion of the meeting Mr. McLean expressed the belief that the trial probably would not take place until after January 17, explaining that his court docket at Fort Worth would prevent him from assisting in the case before that time. The Fort Worth attorneys left for home yesterday evening.

RICHMOND THEATER

The Richmond Theater announces as the featured attraction for two days, "Down Home," a story of American life which, it is heralded, is the greatest of the rural dramas now upon the screen. It is an Irvin V. Willat production, released by the W. W. Hodkinson Corporation and every theatre goes knows Irvin V. Willat as the man who made "Behind the Door" and "Below the Surface" two of the strongest pictures of the year just past. "Down Home" represents Mr. Willat's first effort as an independent producer, and in it he is said to have far surpassed anything he has done before. It is a strong, sweet story of "the sort of folks you know,' and it is enacted by an extraordinary cast of players among whom may be mentioned Leatrice Joy, Edward Hearn, William Robert Daly, Frank Braidwood Aggie Herring, James [illegible] and many others.

of combustion. This gives you a saving of one-third to one-half on your fuel. Burns the fuel gases that other makes of ranges waste and carries a broad sheet of clean flame under all six lids and entirely around the oven. This means even cooking and baking results. Even steady heat—not a flashy wasteful one. Holds fire over night. Gas tight—rust proof vitreous enameled linings. This range will outlast any range on the market and will pay for itself in fuel saved. Furnished in blue or gray enamel or plain black. A beauty from start to finish.

INGOMAR THEATER

Just a plain little old woman, trying not to bother anybody, sitting quietly off by herself most of the time, with a Bible on her lap and a kind old heart that was full of love and charity for the least and the worst of God's children. Who can tell what the quiet prayers of such a dear old lady—of all such dear old ladies, have done to make men and women lead better lives. Where eloquent preachers fail to appeal, the gentle words of these humble, Bible-reading old women avail much. Into the presence of one such woman stumbled Leona, the most expert woman thief in the world. And the angel of truth fought for Leona's soul. This is but one of the gripping situations in "Blackbirds," the first star picture of this incomparable beauty, Justine Johnstone at the Ingomar today.

COUNCIL MEATS

Better Meats That Cost Less
No Waste · Always Tender
Ready-Cooked To Perfection

Pound for Pound Canned Meats are Cheaper

EVERY time you buy uncooked meat you pay for bone, fat and skin that you can't eat. This waste runs from one-sixth to one-half of the cost of the meat.

When a can of Council Meat reads "12 ounces," it means 12 ounces of prime solid meat, no bone, no fat, no waste—and the 12 ounces is the weight *after* it is cooked.

Every piece of meat packed in a Council Meat can is selected, fine, fresh meat. Council Meats are cooked and packed in big sanitary kitchens right out in the open farm country.

Don't spend a lot of unnecessary time in a hot kitchen over a hot stove. Buy your meat ready cooked and save yourself as well as your money.

There is a large assortment of Council Meats—they will provide breakfasts, dinners, luncheons, in wide variety—at a very little cost.

NOT QUITE UP TO IT

You Feel That Way If Your Blood Is Starved for Red Cells

Pepto-Mangan Makes Red Blood

Overcomes That Languid Feeling That Cheats You Out of Work and Fun

You say, "I wish I could go, but I don't feel able." Your friends say, "Are you ill?"

You are not exactly sick, you just feel unable to approach work or play in the old, vigorous spirit.

The high speed at which Americans live sometimes taxes their strength. The blood is weak, lacking in red cells When this condition exists, Gude's Pepto-Mangan taken three times a day shows quick benefits. Pepto-Mangan is known to physicians as The Red Blood Builder. It increases the supply of rich, healthy blood and in the absence of deep-seated disease this means health and strength for men, or women or children.

Pepto-Mangan is put up in both liquid and tablet form. Both forms are exactly alike in medicinal qualities. When you order Pepto-Mangan, be sure to ask the druggist for "Gude's." And look for the name "Gude's" on the package. If "Gude's" is not there, it is not Pepto-Mangan.

WAS OBLIGATED TO GIVE UP HIS JOB

Carthage, Mo., Man Gains 24 Pounds on Tanlac And Is Back on His Job

"I feel better right now than I have in ten years and have gained twenty-four pounds in weight all on five bottles of Tanlac," said W. S. Forrest, 710 Clinton Street, Carthage, Mo.

"I had a long-standing case of stomach trouble that had pulled me down till I wasn't able to work at all and had given up my job and I had told my wife I never expected to be able to work any more.

"Indigestion bothered me day in and day out and my appetite was so poor that I was living on about as near nothing as any man ever did. I had terrible pains across my back and my legs and knees ached nearly all the time. My nerves were all wrought up, I had regular spells of headaches and got to sleep night after night. I fell off in weight and got so weak I couldn't even climb the stairs.

"But Tanlac has made a well man of me and I am back on the job working every day. My appetite is fine and I have gained so much weight that my friends hardly know me at first sight. The pains and nervousness have all gone and I sleep like a top every night. My experience with Tanlac has been remarkable and I recommend it in the highest terms."

Tanlac is sold in Alexandria by Edgar Warfield, jr., and good druggists everywhere.

Fire in Church Uncovers "Still" in Basement

Hanford, Wash., Dec. 27.—Fire which broke out in a church of Hanford yesterday was declared by deputy sheriffs today to have been caused by an overheated whisky still which was in full operation in the basement. The basement was rented by J. A. Brooks, a butcher, for whom a warrant has been issued on a charge of operating a still. The church was not badly damaged by the fire.

Chicagoan Eats While Hungry Family Looks On

Chicago, Dec. 27.—The meanest man in Chicago—Christmas Day—was Joseph Stechock.

His wife and three children had had no food all day. He returned to his home about 6 o'clock, when other families were indulging in luxuriant Christmas dinners, with two pork chops. He cooked them and ate them himself while the mother and children sat by watching him with watering mouths.

Mrs. Stechock protested in behalf of the children, and her husband kicked her and beat her.

Policemen of the Fiftieth Street Station, upon hearing her story collected $12.50 at the station and with $5 worth of fruit and candy donated by Thomas Katarus a confectioner, played Santa Claus to the family.

Chance to Marry Million If You Have Million, Too

Astoria, Oreg., Dec. 27.—Mayor Brenner received a letter from Miss Mabel Tellifer, of Pueblo, Colo., who said there was not a man in her home town that she would have, it was learned yesterday. She pleaded for the aid of the mayor in finding her a husband.

In her letter Miss Tellifer makes but on stipulation—that her mate shall possess $1,000,000.

"Then I'll know he isn't marrying me for my money," she said, stating that she also had $1,000,000.

Late yesterday the mayor had not yet found an applicant.

ASPIRIN

Take Aspirin only as told in the Bayer package for Colds, Headaches, Neuralgia, Rheumatism, aEache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Policemen of Chicago May Be Promoted for Killing Criminals

Chicago, Dec. 27.—In the last few weeks three Chicago policemen have been shot and killed by bandits.

In each case the policeman was reluctant to use his gun.

Now comes Alderman Joseph O. Koster with a plan, which he will recommend to the City Council next Wednesday, to change the situation.

Any policemanwho kills a criminal would be promoted and given a raise in salary under the Alderman's plan.

"It sounds cold-blooded, doesn't it?" said Alderman Kostner, Sunday "but it's what is needed. Old policemen especially hesitate about shooting. They've got to be educated up to the prompt use of the gun.

"The robbers aren't slow with their guns. Why should the policegive quarter?"

The Alderman says Chief of Police Fitzmorris approves the plan.

Girl of 12 Burns to Death While 700 Look on, Helpless

Suffolk, Va., Dec. 27.—Annie Lee Bowden, 12 year old daughter and only child of Mr. and Mrs. R. T. Bowden, prominent citizens of Zuni, Va., while playing the part Wednesday night of "Mrs. Santa Claus" in a public school entertainment, caught fire from a lighted Christmas tree and was burned to death.

Between 600 and 700 persons were in the schoolhouse at the time, and a near panic ensued, with no fatalities, however, except the tragic death of the little "leading lady."

The funeral services were held yesterday at Mount Carmel Church in the presence of scores of children and adults who knew and loved the child.

DYNAMITING SUSPECT SHOT BY GUARD ACCIDENTALLY

Birmingham, Ala., Dec. 27.—Monroe Norwood, one of five men held for investigation in connection with the dynamiting of the home of a miner at Zarles, was accidentally shot and killed by Private Edward Gartman, Alabama city guardsman, one of the soldiers guarding the men.

The accident occurred at Brookswood, and according to information received at the headquarters of Gen. Steiner here, Gartman had stepped into a room two doors from that in which the prisoners were held, where his rifle was accidentally discharged, the bullet crashing through two walls and striking Norwood killing him.

SEIZE 11,000 BOGUS NOTES

Two Men Also Arrested With 9,000 Bad Bills, Say Officers

Detroit, Dec. 27.Federal Officers raided rooms occupied by George F. Choate and Tracy B. Tyler here Friday and seized approximately 11,000 spurious $20 Federal reserve notes, it was announced last night.

Simultaneously the officers were advised, Choate and Tyler were taken into custody in Chicago with nearly 9,000 of the counterfeit bills, which they are charged with manufacturing. The men will be brought here for trial in Federal court, local officers said.

CORK EXAMINER RAIDED, THREE HURT

Dublin, Dec. 27.—Christmas passed off quietly in Dublin, the only casualties being one soldier shot dead, apparently by a sentry whose challenge he failed to obey, and three civilians wounded while running away from a motor car full of armed men in civilian clothes who had called on them to halt. In the provinces some activity prevailed.

The Cork Examiner, the second most influential paper in Ireland, was invaded on Christmas Eve by thirty armed and masked civilians, who destroyed the entire plant and machinery with hammers and set fire to the building. Military state that the evidence shows no soldiers or police were concerned. The outrage is attributed to Sinn Feiners hostile to Bishop Cohalan, of Cork, and to the Cohalan-Devoy faction in America.

Burglars broke into a bank at Drogheda and got away while 36,000 pounds mostly in notes, which wer removed from the strong room.

The sentence of the general court-martial of Countess Markiewicz on a charge of inciting disaffection is two years at hard labor. The charge was based on her activities in organizing the Irish Boy Scouts.

The sentence of the general court-martial on the Freeman's Journal in the newspaper's second case is one year's imprisonment for an editor named Hooper 3,000 pounds fine for the Freeman's Journal Company.

The government has agreed to remit the imprisonment of the editors, as also the sentences of imprisonment on Directors Martin Fitzgerald and Hamilton Edwards in the first case, provided the fines in both cases are paid at once.

Houston and Reserve Board Head Sound Reassuring Business Note

Washington, Dec. 27.—Secretary of the Treasury Houston and Governor Harding of the Federal Reserve Board, joined yesterday in sending out a reassuring message regarding the financial condition of the United States. Both insisted that the present situation is all that could be expected and that the country will "weather all future financial storms."

These officials declared that the United States yesterday was the greatest financial and economic power in the world and will continue to hold and wield that power far into the future years. This assertion is backed also by Comptroller of the Currency Williams and others intimately associated with the fiscal affairs of the nation.

The statements of these officials are occasioned by reports of banks and business concerns that discount the importance of the comparatively few bank failures that have occurred and the business reactions that are noted as a result of the credit strains incident to a readjustment back to peace-time basis.

Secretary Houston and Governor Harding both declared that the year has witnessed a decided advance in the progress of readustment consequent upon conditions which the war brought upon the world.

Medical Building at Charlottesville Destroyed by Fire.

Charlottesville, Va., Dec. 27.—Fire early Friday morning practically gutted the brick building housing the physiological and pharmacological laboratories at the University of Virginia.

Fortunately, no wind was blowing at the time, or other laboratories nearby and Edgar Allan Poe's room, No. 13, West Range, would have been destroyed. The flames were checked just before they reached the offices of Dr. Theodore Hough, dean of the medical department.

All records and correspondence in the office of Dr. J. Alexander Waddell, professor of pharmacology, directly over the furnace room, were consumed. Dr. Waddell is away from the university on a visit to Florida.

The burned building was one of the original structures designed by Thomas Jefferson, and for years was a student boarding house. It was in the basement of this building several years ago that a mysterious subterranean passageway was discovered leading north.

Estimated damage to building is $20,000. The apparatus destroyed was valued at $5,000.

Tax Forms to be Ready Soon

Washington, Dec. 27.—Distribution of forms for filing income tax returns for 1920 will begin January 3, the Bureau of Internal Revenue announced last night. Collectors for each of the 64 districts, the bureau said, will simultaneously release six classes of forms on that date.

The forms to be sent out, the bureau said, for making returns on corporation income and profits taxes, merchant marine corporation profits taxes, and Government contracts profits taxes; information as to subsidiary or affiliated corporations, schedule of taxable interest on Liberty bonds and certificates of inventory.

Gold-Piece Shortage Foils Xmas Givers

New York, Dec. 27.—Uncle Sam is hoarding his nice, shining gold pieces. So there were few of these this year for deposit in some 1,500,000 stockings blessed in such fashion a year ago.

Thousands of employers, fathers and relatives were disappointed Friday when they besought the banks for the customary Christmas gold pieces and were told that the Federal Reserve Board had instructed member banks to hold all available gold for storing.

MINISTER IS BEATEN MISTAKEN FOR THIEF

Detroit, Mich., Dec. 27.—Mistaken for a thief as he was hurrying to his church with Communion cups under his arm, Rev. Harry G. Miley, pastor of St. Paul's English Evangelical Church, was stopped and badly beaten by a crowd at Seventeeth and Buchanan streets here yesterday. The minister was knocked down twice and kicked by members of the crowd before he could make his identity known. He walked to the church and received first aid after being liberated. Miley's face was cut and he was badly bruised.

Dr. Rosenau Addresses Jews

Cleveland, Dec. 27.—Two hundred delegates are here attending the twenty-ninth annual convention of the Jewish Chautauqua Society, which opened a six day conference last night with addresses by Dr. William Rosenau, of Baltimore, and others.

The sessions of the convention will be taken up with studies of kindergarten work, religious schools and biblical history.

Why?

Many persons wonder why they have to pay 40 or 50 cents, or more, for the beef they buy when live cattle are only 10 or 15 cents a pound.

In the first place, we average only about ½ pound of meat from the pound of steer for which we pay 10 or 15 cents. Only part of the other half consists of such by-products as hides, oleo oil, tallow, etc. — the remainder is waste. And the return from by-products just now is very small. Hides and fats as well as many other items are down to pre-war prices.

In the second place, there are not many pounds of the kind of meat for which you pay 40 or 50 cents, or more, in the entire animal. Sometimes the retailer has to sell a lot of the meat he buys for about what he pays for it, because you and your neighbors pass by certain cuts and insist upon the other choicer cuts, such as steaks, etc.

Necessarily, he must get enough for these choicer cuts to make up for what he loses on the less popular ones, such as soup meat, etc.

The difference between the final retail price of the finished meat product and the first cost of the live steer is less than it is for most farm products.

If the foregoing raises any question in the mind of the reader, we will endeavor to answer it, upon request.
